Email: [info@mbs-architecture.com](mailto:info@mbs-architecture.com)

**Morrison Brink Stonor** is a design led multi-disciplinary practice with offices in London, Kent and Paris. Founded in 1996 by Robert Morrison, Barbara Brink and Tim Stonor, the practice has grown steadily since its inception thanks to an ongoing commitment to the production of innovative, practical and personalized solutions to every design challenge. The work of the practice covers an unusually wide range of projects, from minor alterations and extensions to existing buildings, to major new build and refurbishment projects using the latest developments in materials and construction techniques. We have also been involved in works to a number of listed buildings. The practice has won several prizes and has exhibited its work at the RIBA and the Architecture Foundation. As part of its continuing policy of research the practice participates regularly in design competitions worldwide.

**Paris office:** 2 rue Eugène Carrière, Paris 75018, France.

**London office:** 21 Brownlow Mews, London WC1N 2LG, United Kingdom.

**Telephone:** + 33 | 48 04 09 82
